## WORK EXPERIENCE

**SQL Intern** *at RD Info Technology* May 2026 – June 2026

- Engineered and executed optimized SQL queries involving multi-table JOINs, conditional filtering, and data aggregation.
- Managed local and remote database operations utilizing MySQL and phpMyAdmin for structured data workflows.
- Completed virtual SQL internship program focused on structured query logic and database operations.

## FEATURED PROJECTS

**tuduyu (AI Productivity App)** | *React.js, TypeScript, Supabase, Groq AI (Core Backend Developer)* 2026

Live Demo: tuduyu-nu.vercel.app | GitHub: github.com/Anuj747/tuduyu

- Engineered core backend architecture, authentication security policies, and database schema using Supabase.
- Integrated Llama-3.1 model APIs via Groq edge functions to parse natural language requests into structured database tasks.

**Coldrts Animation Studio Website** | *Next.js, React, Tailwind CSS, Framer Motion (Full-Stack Developer)* 2026

Live Site: coldrts.vercel.app

- Architected, developed, and deployed the official production and services website for Coldrts Studio.
- Structured client inquiry intake APIs and optimized layout assets for high-fidelity mobile responsiveness.

**Urban Scholar (Volunteer NGO Platform)** | *PHP, MySQL, CSS Grid, AJAX APIs (Core Full-Stack Developer)* 2026

Live Site: urbanscholar.site.je

- Architected a database-driven volunteer scheduling platform connecting educators with underprivileged students.
- Engineered secure volunteer authentication logic, an administrative logging dashboard, and responsive layout interfaces.

- **Health Mate AI (Diagnostic Tool):** Python, Scikit-learn, React.js | Solo Creator (2026). Developed an intelligent symptom-indexing diagnostic tool connecting ML models with an interactive UI. [Live UI] | [Demo Video]
- **No One's Judging:** HTML5, CSS Grid, GitHub Pages | Solo Creator (2025). Designed and deployed a minimalist, distraction-free publishing site for anonymous creative writing. [Live Site]
- **CIE Portal (Continuous Internal Evaluation):** PHP, MySQL, CSS Grid, JavaScript | Full-Stack Developer - Team Project (2026). Developed frontend UI components and SQL backend queries for Deogiri College's academic evaluation platform. *[Official College Integration]*

## EDUCATION

**Bachelor of Science in Information Technology (B.Sc IT)** *at Deogiri College (Dr. BAMU University)* 2023 - 2026

- **CGPA:** 8.0 / 10.0
- Relevant Coursework: Database Management Systems, Web Programming, OOP.

**Higher Secondary Certificate (HSC) - Science** *at Deogiri Jr. College* 2021 - 2023

## CERTIFICATIONS

- **AI Engineer Explorer** | School of AI
- **JavaScript, PHP, & Python Complete Masterclass** | Udemy
- **C++ and Java Core Programming** | Crunch Coding Institute
